

RULE

Office of the Governor

Capital Area Ground Water Conservation Commission

Pumpage Fees (LAC 56:V.1103)

The Board of Commissioners of the Capital Area Ground Water Conservation District, which consists of the parishes of East and West Baton Rouge, East and West Feliciana, and Pointe Coupee, has increased the pumping charges for nonexempt ground water users from \$5 per million gallons of water pumped to \$10 per million gallons of water pumped. The board has determined that this increase is necessary to fund a study projecting saltwater intrusion into groundwater in order to determine preventive measures. The Capital Area Groundwater Conservation District plans to install several exploratory wells 2,000 feet below the surface (2,000-foot sand) to determine the location of saltwater and the best location for a saltwater scavenger well. This action is in accordance with Louisiana Revised Statutes 38:3076(14) and 38:3079.

Title 56

PUBLIC WORKS

Part V. Capital Area Ground Water Conservation Commission

Chapter 11. Determination of and Payment of Accounts
